Lots of different flavours (ask us & we'll run through today's options); tell us how many scoops you'd like & we'll do the rest, possibly even involving sprinkles & sauce! Definitely tell us if this last bit made you excited & we'll see what we can do!

*Please ask if you'd like something not listed on the menu which could help to accommodate your family; we can't promise we'll be able to do it (even if we have before!), but we can promise we'll try!*

*If absolutely nothing on our menu is ticking the box for your child today, we don't mind your child eating food brought elsewhere. We do however ask that you respect that this is an animal-product-free space & as such, make an effort to ensure the food is vegan (we're happy to check if you're not sure!) We'd also love feedback on what sort of food offerings would have enabled your child to order from the menu today- we hate the thought of anyone missing out!*
