Our menu uses the following key: GF = Gluten-free, GFO = Can be made gluten-free if requested, N = Contains nuts. A complete allergy log, detailing which dishes contain soy, sesame, lupin, celery, mustard & sulphites is available upon request. Although every care has been taken to reduce cross-contamination, there can be no guarantee that your food will be prepared in an environment completely free of allergens; cross-contamination is always a risk in a busy kitchen. If you would like to chat more about your order & how it is prepared, just ask a member of the team. We are very happy to try and accommodate dietary requirements that sit outside common allergens too; we simply ask for 24 hours' notice here, to ensure we can both accommodate your needs & give you the best dining experience with us.
